

Bona® Edge XL

Rugged • Reliable • Results

- GREENGUARD certified
- Access toe kicks and other hard to reach places
- The unique “open-throat” design allows unobstructed air flow in the vacuum chamber
- Cast aluminum body
- Adjustable ergonomic handles
- Built-in 20w halogen work light
- Atomic DCS® compatible
- Non-marking urethane wheels

The Bona® Edge XL’s state-of-the-art design is engineered for performance, convenience and durability, unequaled power, superb balance and superior dust pick-up. Sanding edges and toe kicks is a hard job, but with the Bona® Edge XL you can make the job easier and faster.

With its adjustable, ergonomic handles, the Bona® Edge XL is less tiring for your hands and arms. One unique feature of the Edge is the “open-throat” design. The drive belt is located above the sanding disc in a separate enclosure to create

unobstructed air flow in the vacuum. This unimpeded airflow results in exceptional dust pick-up. When operated with a Bona® Atomic DCS® (Dust Containment System), it is virtually dust free, meaning healthier working conditions for you, less clean-up, better finish results, and more satisfaction from your customers.

The Bona® Edge XL is GREENGUARD certified for indoor air quality.

TECHNICAL SPECIFICATIONS

- **Motor (single phase)** 1.8 HP, 60 Hz, 115 Volt
- **Machine weight** 32 lbs.
- **Sanding disc size** 7”
- **Sanding disc speed** 3,000 RPM at normal load
- **Combination sanding disc** siafast backed or standard
- **Illumination** 20w halogen light
- **Adjustable ergonomic handles**
- **Access toe kicks and other hard to reach places**
- **Item #AM0003135**
